SUMMARY:

Python Developer with strong proficiency in core Python, object-oriented programming, and data structures. Hands-on experience in building console-based and data-driven applications, performing data analysis using Pandas and NumPy, and working with MySQL and MongoDB databases. Familiar with backend development concepts, CRUD operations, RESTful application logic, and Git-based version control. Seeking an entry-level Python Developer, Backend Developer, or Data Analyst role to apply analytical and programming skills in a production environment.

EDUCATION:

BATCHLORS DEGREE – BCS(B.sc Computer Science entire)

Final CGPA : 8.63/10

Rajarshi Chhatrapati Shahu College, Kolhapur, Maharashtra-416003 July 2022 - April 2025

Python Full Stack

Naresh I Technologies, Ameerpet, Hyderabad, Telangana 500016 August 2025 – Present

TECHNICAL SKILLS :

Programming Languages:
Python, SQL, JavaScript (Intermediate), HTML5, CSS5,

Python Concepts:
OOP, Data Structures, Exception Handling, File Handling

Databases:
MySQL, MongoDB

Frameworks and Libraries:
NumPy, Pandas, Django (Basics), Bootstrap, Matplotlib, React

Software & Tools:
PyCharm, jupyter notebook, VS Code, Git, GitHub,
Editing Tools:
Blender, Figma, Photoshop

PROJECTS:

ATM Management System | Core Python

- Developed a console-based ATM application using core Python concepts.To perform balance inquiry, cash deposit, and withdrawal operation

Employee Information System | Core Python

- Built a menu-driven console application using core Python to add, update, delete, search, and view employee records.

EDA Google Play Store Project | Numpy, Pandas, Matplotlib

- In This Project I performed Various Data Preparations and Cleaning Processes.
- we will be loading the Google Store Apps data stored in csv using pandas which is a fast and powerful python library for data analysis and easy data manipulation in pandas DataFrame object.
