Programming Languages:
Python, JavaScript, SQL, HTML5, CSS3

Backend Development:
React.js, Tailwind CSS, Responsive Web Design

Frontend Development:
Node.js, Django

Databases:
MySQL, MongoDB

Data Analysis & Visualization:
Pandas, NumPy, Matplotlib

Software & Tools:
Git, GitHub, VS Code, PyCharm, Jupyter Notebook

Editing Tools:
Figma, Photoshop, Blender

ACADEMIC PROJECTS:

ATM Management System | Core Python

- Developed a console-based ATM application using core Python concepts.To perform balance inquiry, cash deposit, and withdrawal operation

Employee Information System | Core Python

- Built a menu-driven console application using core Python to add, update, delete, search, and view employee records.

EDA Google Play Store Project | Numpy, Pandas, Matplotlib

- In This Project I performed Various Data Preparations and Cleaning Processes.
- we will be loading the Google Store Apps data stored in csv using pandas which is a fast and powerful python library for data analysis and easy data manipulation in pandas DataFrame object.

Freelancing

PROJECTS:

Personal Portfolio Website
Technologies: HTML, CSS, JavaScript, React.js, tailwindcss

- Designed and developed a responsive personal portfolio website to showcase projects, technical skills, and professional background.
- Implemented modern UI design and optimized the website for desktop and mobile devices.
- Project Live Link : https://palasync.vercel.app

Video Editor Portfolio Website
Technologies: HTML, CSS, JavaScript, React.js, tailwindcss

- Designed and developed a personal portfolio website showcasing skills, projects, and professional information.
- Implemented responsive design for desktop and mobile devices.
- Project Live Link : https://netresh-satpute.vercel.app

College Website
Technologies: HTML, CSS, JavaScript, React.js, tailwindcss

- Developed a responsive website for an educational institution to present academic information, facilities, and announcements.
- Structured content for better navigation and user experience.
- Project Live Link : https://smjca.com

Preschool Business Website
Technologies: HTML, CSS, JavaScript, React.js, tailwindcss, Python, Django

- Built a professional business website for a preschool to establish its online presence.
- Designed informative pages, contact sections, and responsive layouts.
- Focused on usability, accessibility, and mobile responsiveness.
- Project Live Link : https://wowsaplingsschool.in

Animated Marketing Website
Technologies: React.js, Tailwind CSS, GSAP, and Rive

- Designed and developed a premium, responsive marketing website
- Featuring custom UI/UX, interactive animations, and modern motion-driven experiences.
- Project Live Link : https://brand-masala-v2.vercel.app

AURA Design Studio
Technologies: React.js, Tailwind CSS, GSAP, and Rive.

- Developed a responsive architecture and interior design website.
- Featuring cinematic animations, interactive project showcases, modern UI/UX, responsive layouts, and smooth user interactions.
- Project Live Link : https://aurainteriorsdemo.vercel.app
